

# Team Neutrino

## World Championships

### Fun Times!

Members in the team had a lot of fun during their visit to Detroit. They got the opportunity to go to different workshops and also saw Canada!

### Robot Performance

Our Team performed to the best of our ability at Champs! We were granted scouting awards from other teams because of our climber. We also ranked 45th in what was arguably the second hardest division at Detroit.

### Scouting

After two full days of scouting, Team Neutrino had a long scouting meeting that was incredibly successful and fun!

Huge thanks to the ISU Center for Technology in Learning and Teaching for letting us use their iPads.

### Team Interactions

Members of Team Neutrino, Abby and Jacob, assisted Team #7523 Springbots, a team from South Africa during Champs. They helped with reassembling the robot.
