

# Team Neutrino

## September - October

### SCI Mini Maker Faire

On September 2<sup>nd</sup>, our team members assisted at the Science Center of Iowa's Mini Maker Faire, where we displayed our robot and helped teach STEM activities like plastic fusing and paper circuit construction.

### Team Roster Announced

On September 16<sup>th</sup>, the roster for the 2019-2020 season team was officially announced! 33 members strong with 8 associate team members, the team is already working hard to prepare for the 2020 FRC season to begin!

### Cardboard Day

Nothing gets people excited like building a table! We're serious. During a team meeting in October, the team split into groups to build cardboard tables. We measured to see how much weight they could hold, and they held a *lot!* This team event was to get people excited for *Month of Cardboard*, happening at Ames Public Library on December 15, 22, and 29.

### Team Bonfire

On October 19<sup>th</sup>, we had a team bonfire to eat the 30 pounds of pasta leftover from one of our outreach events. This night provided an opportunity to grow team unity and allow team members to relax for a night of fun and socialization!
