

Team Neutrino

July-August

4th of July Parade

This summer Team Neutrino marched in the 4th of July parade, threw candy, showed off the robot to the community, and spread the message of FIRST!

QUALITY
MANUFACTURING

2018

Mechanical Camps

Team Neutrino had two Mechanical camps for new and returning members of the team in which students were taught how to use machines at Boyd Lab and made mousetrap cars.

Sponsor Visits

Team Neutrino traveled to different sponsors including John Deere, Interstate Battery, and Danfoss. At each of the visits we presented about our team and did a robot demonstration.

Iowa State Fair

Many interested people showed up to learn more about Neutrino at the Iowa State Fair STEM Day! It was a fantastic opportunity for NEWtrinos where they learned more about the team, drove the robot, and practiced public speaking.

Coming Next Time: Mini Maker Faire and CowTown ThrowDown Competition
